

A Mother's Day Celebration!

One common theme persists in this program: songs that all honor women and mothers! With classical selections from composers like Bach, Sammartini, and Saint-Saëns all on the repertoire, Prizgintas promises not to hold back with his electrifying guitar pedals and looping station. Also featured are a variety of rock tunes featuring themes of strong women, from Three Dog Night's "Mama Told You Not to Come" to Mountain's "Mississippi Queen." Alex works to give a "show" that offers more give-and-take with the audience while delivering bits of information revealing some of the background behind the melodies and the melody makers. His hour-long program welcomes audiences of all ages and those looking to walk away not only hearing new interpretations of familiar tunes but also experiencing the gift of learning a fact or two about this music's rich history.
